Skilled in front-end technologies such as HTML, CSS, Bootstrap, Tailwind CSS, JavaScript, React, and jQuery. Proficient with UI/UX design tools including Figma, and Adobe XD, with a strong focus on delivering visually cohesive and high-performing designs aligned with business objectives.

SKILLS

UI/UX Design Tools	Figma, Adobe XD, Adobe Illustrator, Adobe Photoshop
Front-End Development	HTML5, CSS3, JavaScript, jQuery, React.js, Bootstrap, Tailwind CSS
Design Skills	Wireframing, Prototyping, Visual Design
Version Control	Git, GitHub, TFS (Team Foundation Server)
Frameworks	.NET Core MVC

WORK EXPERIENCE

UI/UX Front-End Developer

Dec 2024 – Present

Gemini Software Solutions Pvt Ltd

Technopark, Trivandrum, Kerala

- Executed the revamp of the company’s main website and product sites (Gemark, Gem Liner, iStorePro, and Gem Cards), focusing on enhanced UI/UX, responsiveness, and performance optimization.
- Reimagined the **UI/UX design and front-end development** of the **Gemark cloud-based application**, improving user journey, task efficiency, and visual consistency.
- Redesigned and modernized the **iStorePro application**, a Tier-1 Warehousing Intelligence Platform developed in collaboration with **Godrej**, enhancing usability across logistics and warehousing workflows.
- Created **responsive and accessible web interfaces** using **HTML5, CSS3, Bootstrap, JavaScript, and jQuery** to ensure cross-browser compatibility and device adaptability.
- Designed intuitive and visually cohesive user interfaces using Figma, aligning with user needs and business goals across industries such as **Shipping & Maritime, Warehousing & Logistics and Retail Banking**.
- Developed and integrated UI components with **.NET Core MVC** architecture, ensuring seamless interaction between UI and backend services.
- Collaborated in Agile teams using **TFS** for version control, task tracking, and efficient project delivery.

> **Project: GEM-ARK Application**

Tools & Tech: Figma, .NET Core MVC, HTML5, CSS3, Bootstrap, JavaScript, jQuery, TFS

Designed end-to-end wireframes and interactive prototypes in Figma for the GEM-ARK application and developed front-end UI components using .NET Core MVC, collaborating closely with backend teams via TFS to ensure accurate, module-wise implementation aligned with business logic.

> **Project: iStorePro Application**

Tools & Tech: Figma, .NET Core MVC, HTML5, CSS3, Bootstrap, JavaScript, jQuery, TFS

Revamped a legacy Windows-based warehousing application into a modern web platform by creating detailed Figma wireframes, developing UI components with .NET Core MVC, and collaborating with cross-functional teams via TFS for agile, on-time delivery and continuous improvements.

> **Project: Corporate Website & Product Microsites Revamp**

Tools & Tech: Figma, HTML5, CSS3, Bootstrap, JavaScript, jQuery, Visual Studio Code

Redesigned the corporate website and product microsites by developing UI/UX prototypes in Figma and building responsive, optimized web pages with consistent branding.

- Designed intuitive and visually appealing user interfaces for websites using **Figma** and **Adobe XD**, maintaining brand consistency throughout.
- Developed **responsive** websites and web applications using **HTML, CSS, Bootstrap, Tailwind CSS, React, JavaScript, and jQuery**.
- **Optimized web pages** for maximum speed and scalability through **code minification, image optimization**, and other performance-enhancing techniques.
- Proficient in writing **cross-browser compatible code**, ensuring seamless user experiences across different devices and platforms.
- Applied **SEO** principles to improve website visibility and search engine rankings.
- Collaborated with backend developers using Django and Laravel to deliver seamless full-stack solutions.
- Utilized **GitHub** for version control, enabling efficient collaboration and code reviews.

➤ **Projects: Web Application Development Projects**

Technologies: HTML, CSS, Bootstrap, Tailwind CSS, React, JavaScript, jQuery

Designed and developed responsive web applications—including Event Management, Document Management, Project Management, Exam Management, and Deskttime—using React, Tailwind CSS, JavaScript, and jQuery, with a focus on modern UI, interactivity, performance, accessibility, and mobile responsiveness.

➤ **Projects: Static & Dynamic Websites**

Technologies: HTML, CSS, Bootstrap, JavaScript, jQuery

Designed and developed visually appealing, SEO-optimized, and fully responsive websites for industries including corporate, marketing, eCommerce, interior design, technology, jewelry, manufacturing, and healthcare, ensuring cross-browser compatibility.

- Developed and maintained front-end web applications using HTML, CSS, JavaScript, Bootstrap and jQuery.
- Created back-end services for data manipulation and business logic using Django.
- Created custom views and models for the application using Python and Django.
